

450 Crawler Tractor

450 Technical parameters of crawler tractor

	parameter	
size	M	2.45*1.32*1.15
weight	kg	1500kg
	Ground clearance	mm
engine	model	40W91 450G33
	form	EFI、Inline、Water cooling、stroke
	rated power KW	33.1KW
	Fuel oil	Diesel oil
	Rated speed rPm	2400
	Start method	Electric start
Steering brake system	Steering system type	Brake brake steering
	Brake system type	Mechanical brake
Rotate	Clutch type	Monolithic single acting
	Gearbox type	Main gear +8+2 gear
	Gearbox shift type	Gear shift
Walking Department	Rack form	Rigid frame
	Track pitch x number of sections x width	230-300 width
	Speed of each gear km/h	Machinery: high 0-9.2 low 5-3

working equipment	Lifter type	Strong rise and fall
	Tillage depth control method	Position control (hydraulic control)
	PTO shaft type speed rPm	720/540
	Power transmission type PTO spline and outer diameter mm	Dependent 8x38/6x35
walking	Walking speed	Maximum speed 20km/h
