

YTO C802 Crawler Tractor

Model		YTO C802 Crawler Tractor
Parameters		
Type		Agricultural crawler type
Dimension(LengthxWidthxHeight) (With earth-moving shovel)	mm	4870x2462x2766
(Without earth-moving shovel)	mm	4466x1835x2766
Min. operating weight	Kg	6630(equipped with earth-moving shovel)
Wheeltread	mm	1435
Wheelbase	mm	1622
Width of crawler	mm	390
Ground specific pressure	kPa	47.4(equipped with earth-moving shovel)
Diesel engine		
Model		LR4A3Z-22
Type		Vertical,water-cooling,four-stroke,turbocharged
Displacement	L	4.33
Rated power and speed	Kw/r/min	58.8/2200
Transmission		
Gears forward/rear		4/2
Speed forward/rear	Km/h	3.67-9.03/3.51-5.59
Power of power takeoff shaft	Kw/r/min	49
Speed of PTO	r/min	750
Clutch		12-inch double-disc single-action
Work attachments		
Type pf three-point linkage		Rear-mounted two-point or three-point class-II linkage
Depth-control method		Height adjustment
Lifting force	Kn	14
Size of earth-moving shovel (Width x Height)	mm	2462x850
Underground depth of earth-moving shovel	mm	290

YTO C802 Crawler Tractor

Parameters		
Type		Agricultural crawler type

YTO C802 Crawler Tractor

Product name: YTO C802 Crawler Tractor

Engine power: 80 horse power

Engine brand & model: YTO LR4A3Z-22

Min Order Qty: 1 unit

Delivery Time: 35 days

Country of Origin: China

1. Tractor with new appearance, which can be widely used in agricultural land operations and earth-moving operation.
2. Dry-type double-disc single-action main clutch, which is easy to operate and has long service life.
3. 4+2 transmission equipped with sliding gear for shifting operation, which has reliable performance.
4. Multi-disc dry-type steering clutch, and floating-type belt brake which enables reliable braking operation.
5. Simply-supported beam structure for final drive, which has the advantages including high supporting strength and high reliability.
6. Power-assisted hydraulic steering system, which will reduce the labor intensity of operator.
7. Wide crawler available for works on low and wet land, and rubber crawler available for increasing the trafficability.
